## Software Engineer Intern

### Venngage

Dear Hiring Manager:

Upon perusing through your job advertisement Software Engineer Intern, I was compelled to submit my application. As a Computer Science undergraduate with internship experience in technical support, I believe I am an excellent fit for the position.

By taking csc301, I have learnt how to build and manage a complete software and acquired knowledge about SDLC. By taking csc309 and working on Where2Live and JustPost, I learned developing both the front end and the back end of the website or an app, which involves implementing the user authentication and creating an efficient database schema. By taking the course csc343, I am familiar to SQL database that I know how to use it and have ideas how to build a database. By taking csc358, I acquired deep understanding of web and internet theory. In addition, through all the projects I completed, I have already qualified strong abilities of trouble shooting, team working, organizing, and so on. I believe my passion to learn new knowledge and ability of problem solving matches your expectation. In addition, I would also bring the following strengths and qualifications to your team:

- Technical proficiency in Java, Python, C, C++, JS, HTML, CSS, Node.js, jQuery, SQL, and MS Office/365; able to quickly learn new business applications, software, and technology.
- Skilled in software testing, debugging, troubleshooting, and developing technical service or solutions to address client needs.
- Able to do work under different OS, such as Linux, Mac OS and Windows.
- Familiar with version control tools, such as Git.
- Native or bilingual capacity in English and Chinese.

Moreover, I am willing to challenge myself and learn new stuffs. I was a Technical Support Engineer Intern at ZTE, wherein I held the responsibility of supporting client requirements gathering and technology solutions development. I also assisted in network construction for campus and joined different technical exchange meetings. This experience allowed me to hone my skills in fundamental business analysis, project management, networking, and client service. Also, it shows me how a real company runs and the working environment in real life.

As an emerging professional with an ardent passion for learning and strong detail orientation, time management, and interpersonal communication skills, I am confident that I would meet and exceed your expectations.

I look forward to hearing from you to discuss this opportunity in further detail. Thank you for your time and consideration.

Sincerely,  
Yiming Zhang
